Declaration and certification - incomplete example

Origin statement is not signed. The responsible exporter must establish origin using applicable rules and evidence before making a declaration. This sample has no authorized signature, official certificate number, chamber seal or certification.
A general origin draft is different from a USMCA certification. Printing this layout does not establish preferential-origin eligibility or qualify goods for lower duties.

Create and review your own draft at https://tradocket.com/. Requirements vary by destination and transaction. All sample figures are fictional; do not submit this file to customs or a trading partner as an actual shipment document.
